Harvel® PVC and CPVC Machining Shapes Meet ASTM D6263

Harvel's state-of-the-art extrusion process provides porosity-free, stressed reduced products with optimal physical properties and exacting tolerances, and products that consistently machine with ease, part after part. Innovation and the latest technical know-how, combined with

processing experience since 1964, enable Harvel to produce quality stock machining shapes from 1/8" through 12" diameters. Available products include solid bar, hollow bar, square, rectangular, hexagonal bar, angle, and joining strip.

What you may not have known is due to Harvel's stringent quality standards, Harvel is the only rod manufacturer in the industry that will certify it's PVC and CPVC solid rod products consistently meet the new ASTM D6263 standard for PVC

and CPVC extruded shapes. This standard has been developed to establish quality requirements for extruded rods and bars made from rigid PVC and CPVC.

In addition to maintaining tight dimensional tolerances, emphasis is placed on processing conditions that effect end product properties, performance, and overall quality. These are degree of fusion, porosity, dimensional stability, camber and bow, and traceability. Visit their website at www.harvel.com.

Industry Events

- ASPE Local Chapter Meetings
1st Wednesday of Each Month
- IAPD 49th Annual Conference
September 21-25, 2005,
Chicago, IL

Notes of Interest

- I enjoy the oohs and aahs from the gallery when I hit my drives. But I'm getting pretty tired of the awws and uhhs when I miss the putt. — **John Daly**

- **Harvel** — Engineering and Installation Guide CD **now available**.

Associations

Jack Felts Now on Harvel® Team

Harvel is pleased to announce the addition of Mr. Jack Felts as a Technical Services representative. Jack will be assisting Harvel's Technical Service and sales teams by providing field specification work on behalf of Harvel at the engineering and end-user level.

He is based in Dallas, TX and can be reached at 484-241-7582. He will be assisting our sales force via joint engineering

calls, trade show participation, product training, and other technical service related projects as the need may arise.

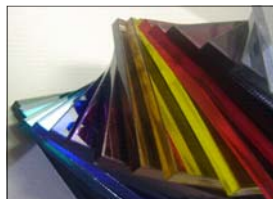

We consider ourselves very fortunate to have Jack join our team, as his technical expertise and years of experience in our industry will truly provide a valuable asset to our organization.

Please join us in welcoming him to the Harvel family, and we are

certain you will enjoy working with him as the opportunities arise.

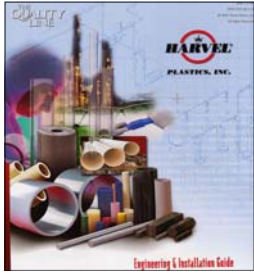

Bunker Plastics – Quality Mirror and Coated Plastic Products

"There is nothing in the world that some man cannot make a little worse and sell a little cheaper, and he who considers price only is that man's lawful prey." — John Ruskin (1819-1900)

Bunker Plastics manufactures quality Mirroplast™ mirror and coated plastic products: Clear and Colored Acrylic mirror, Polycarbonate mirror, PETG mirror, Marine and Aircraft mirror, transportation mirror, safety and security mirror, anti-fog coated mirror, abrasion resistant coatings, and CNC laser service. Visit their website at www.bunkerplastics.com for more information on their products. In addition to Bunker Plastics, you can access our complete line of products at www.foustmarketing.com.

Harvel® Technical Support Center

Harvel has recently introduced their new Technical Support Center at www.harvel.com. The site is dedicated to providing the industry with the latest technical information on their products.

You will need to complete a brief registration page to gain access, and Harvel will in-

stantly provide you with a unique user and password via e-mail. Once you have registered, you will have unlimited access to download valuable specification and technical information in a format to print or e-mail your customer. Sample items are product specifications, chemical resistance, dimensions and pressure ratings, storage and handling, testing, and more.

Harvel has also developed their engineering and installation CD to support our efforts in the field. It also has a duct calculator for those HVAC applications. Please contact us for your copies of the new CD.

“Commit to the LORD whatever you do, and your plans will succeed.” — **Proverbs 16:3**
