King Plastic Corporation has been developing and manufacturing quality polymer sheets, slabs & massive shapes since 1968. The King heritage is a timeless commitment to innovation, quality and service.

Its industry leading branded and commodity products are manufactured at the company's state-of-the-art 150,000 square-foot headquarters in North Port, Florida and distributed worldwide.

Quality is the foundation on which King Plastic Corporation was built. King Plastic uses only the finest polymer resins and the most advanced color stabilization additives in conjunction with state of the art manufacturing processes.
